DOWNLOAD PROGRAMS FOR USE WITH

LIVING CONTROL SYSTEMS III

For Windows (native or emulated) only
If your copy of LCS3 has a CD inside the back cover, you don't need this download.

These programs have not been tested under all possible conditions: use at your own risk.

NOT LICENSED FOR COMMERCIAL USE OR SALE

STEPS

1

Click here to download the self-extracting file LCS3Demos.exe to your usual download location.

2

Find LCS3Demos.exe and double-click it.
A window with some buttons appears: DO NOT EXTRACT YET.
Click the Browse button and change the target directory, as follows:
Go up a level (click small yellow icon with arrow bending upward).
Double-click My Computer, then double-click "Local Disk (C:)." Click Set. NOW click Extract.

3

Open the folder C:/LCS3Programs.
Copy the red-ball shortcut icon (arrow in lower left corner) to the Desktop.
Clicking the shortcut icon will open the menu of demonstrations.

These 13 computer programs (with new Windows interface by Dr. Bruce Abbott)
are used with the book **Living Control Systems III: The Fact of Control**,
by William T. Powers (Benchmark Publications Inc.),
which includes a tutorial for each of the 13 demos and ties the programs directly to PCT principles.
Details of most programs are given in an extensive mathematical appendix by Dr. Richard Kennaway.
